"Being thankful is not telling God you appreciate the fact that your life is not in shambles. If that is the basis of your gratitude, you are on slippery ground. Every day of your life you face the possibility that a blessing in your life may be taken away. But blessings are only signs of God's love. The real blessing, of course, is the love itself. Whenever we get too attached to the sign, we lose our grasp on the God who gave it to us. Churches are filled with widows who can explain this to you. We are not ultimately grateful that we are still holding our blessings. We are grateful that we are held by God even when the blessings are slipping through our fingers."
